FOOTBALL PLAYOFF HISTORY

The framework for determining a high school champion in football was set forth by the principals of West Virginia in 1947. At this time, a resolution was adopted to institute a rating system for use in determining a champion of the larger schools (Class A) and a champion for the smaller or Class B schools. Beginning in 1948, it was decided that champions of the two classes would be decided by a playoff or championship game between the two top rated schools of each class. Although a championship game did not take place in Class A in 1948, the two-class procedure and a class championship game existed until 1955. At this time, the schools were divided into three classes: AA, A, and B. A championship game was held in each class among the two top rated teams. The names of the three classes were changed in 1958 to the present system of AAA, AA, and A. Again, championship games were held in each class until 1972, with the exception of 1963, at which time no championship game was held in Class AAA. The four-team playoff in each class had its inception in 1972.

The idea of an eight-team playoff began in 1976. At this time, it was discussed with the Football Coaches' Committee which is appointed by the Executive Secretary of the West Virginia Secondary School Activities Commission, and which meets yearly to discuss this area of the interscholastic program. The committee expressed unanimous interest and recommended that the West Virginia Secondary School Activities Commission poll member schools concerning their interest in such a change. A 92% affirmative response prompted the West Virginia Secondary School Activities Commission to appoint a committee to study and propose a procedure for implementing the eight-team concept.

The committee of athletic directors and coaches appointed by the West Virginia Secondary School Activities Commission consisted of the following people: John Chmara, Paul Clovis, Tom Korab, Ron Renner, Fred Taylor, Frank Vincent, Carl Ward, Kenneth Wright, and Granville Zopp.

The committee presented their findings and possible procedures to the Board of Appeals on two different occasions. After numerous findings and recommendations, the Board of Appeals instructed the Executive Secretary, in December 1977, to present a final draft to each member for study. The final draft was adopted in March 1978 for full implementation in the 1978 season.

In 1990, the Football Coaches' Committee recommended to the Board of Appeals that the playoffs be expanded to sixteen teams in each class. After much discussion, the Board voted to try the sixteen-team format for the 1991 season. The Board also voted to limit the regular season to 10 weeks. In 1992, the sixteen-team format continued, and the regular season was expanded to eleven weeks.

It is interesting to note that seven major revisions have been made in the West Virginia Secondary School Activities Commission football rating and playoff program in its history. The latest change has had the same positive impact as previous changes.

FOOTBALL RATING PLAN

A team must play 6 teams in their class or above to be eligible to be considered in the playoff ratings. When a contract is signed with a school, the classification of that school will be used in determining the 6-game requirement for the length of the contract. Schools will be responsible for notifying the WVSSAC office by October 1. Copies of the contracts will be necessary to verify the agreement. However, rating points will only be given for the true classification.

1. Games regularly scheduled under the provisions of the official contract form of the Commission which are cancelled by mutual agreement and approved by the Board of Directors shall not be included in any calculation of the rating system. Games which are cancelled or terminated without mutual agreement and for which the penalty features for the contract are paid or ordered paid by the Board of Directors, shall be counted under the forfeiture rule. The offended team may schedule a game to replace the forfeited game; the offending team may not. In such cases, a game so scheduled shall not count in the rating plan.
2. Should a tie exist at the end of regulation play in any regular season football game, the procedure for breaking the tie shall be the same as that described in the National Federation Football Rule modified "20-yard line Overtime Procedure". The overtime play shall not be limited in regular season games. (Revised 5/18/20)
3. Games played by WVSSAC member schools after date listed in Rule 127-3-23.2.1 ("Date Season must be Completed") shall not count in the rating system.
4. A team's final rating shall not be affected by the result of a protest registered after the preliminary playoff meeting held on the Sunday prior to the first-round game.
5. The sixteen top rated football teams in each class (AAA, AA,A) shall be eligible for first round playoff competition in their respective class. Pairing for first round games for each class will be as follows: 1 vs. 16, 4 vs. 13, 5 vs. 12, and 8 vs. 9 in the upper bracket and 2 vs. 15, 3 vs. 14, 6 vs. 11, and 7 vs. 10 in the lower bracket.

The winner in each class championship game shall be declared the class champion and the loser shall be declared the runner-up. No determination below champion and runner-up shall be made. If any eligible rated team declines to compete in first round competition, the next eligible rated team shall be designated to participate in first round competition.

Should there be a tie for any position in the final rating for each class, the following criteria will be used to determine first round pairing and resolve ties which create more than sixteen top rated teams for any class (A, AA, and AAA):

- (A) If teams tie for the sixteenth position and competed against each other, the loser will be eliminated. If teams tie for any other position other than sixteenth and competed against each other, the winner will be selected for the higher position in pairing.
- (B) If a tie still exists which cannot be resolved by (A), the wins of their **defeated opponents** will be totaled and the team with the most bonus points *in their class or higher* as computed by the WVSSAC Rating Plan will be selected or moved up for pairing.
- (C) If A and B do not select any sixteenth-place team or eliminate a tie above sixteenth, the team with the best win-loss record will be selected (based upon percentage).
- (D) Record against common opponent(s).
- (E) Difference of points scored minus points allowed by defeated opponents.
- (F) In case a tie still exists for any position which cannot be resolved by (A) through (E), a blind draw will be used to determine the position and sixteen participants for each class.

6. If any class championship game cannot be played because of uncontrollable factors as determined by the Board of Directors, the two teams thus affected shall have equal entitlement to all honors and awards.
7. Each school's entire schedule of football games, exclusive of those played against junior varsity opponents, scheduled prior to October 1 and within the seasonal limits shall be counted in the Rating Plan. However, should a high school team compete two times during a given season with the same school, points for both games shall be counted in the Rating Plan (may involve only one (1) team and two games in a season).
8. **Schools are required to post scores by 12:00 noon on Monday following a game date. Failure to post each game scores will result in a \$50.00 fine for each week.**
9. The classification of a non-member school shall be made on the basis of enrollment in a manner similar to the plan used by members of this Commission. Records from non-member opponents who play more than 10 games per season may be included only to the extent of the first nine regularly scheduled games of that opponent in addition to the game with the member school. Games played by non-member schools after the last date, as specified in Rule 127-3-23.2.2 of this manual and WVSSAC Handbook will count only if a rating point(s) is insured as calculated by the method(s) used in this Rating Plan.
10. Schools playing non-member opponents shall furnish the WVSSAC with the following information:
 - A. 127-3-10: 10.1 - Each member high school shall be classified as either AAA, AA or A based on the enrollment figures in grades 9-10-11-12 at the end of the second school month of the odd numbered year preceding the classification.
Classification for 2020-2021 thru 2023-2024:
AAA - 801-1851
AA - 451-800
A - 0-450
 - B. Schedule of non-member opponent(s) which shall also include the same information as explained in (A) and including enrollment figures of their opponents.
 - C. Failure to perform the duties as defined above may terminate the right of a member school to participate in the rating plan and said right may be regained only through the Board of Directors.
11. A high school must play a minimum of eight varsity games to participate in the Rating Plan and be eligible for playoff competition.
12. Disputes concerning the validity of any interscholastic athletic contest shall be resolved by the Board of Directors.
13. To determine the final rating, total the points and divide by the number of games played.

	AAA	AA	A
For winning against	12	9	6

WVSSAC FOOTBALL PLAYOFF

In 1990-91, the following Football Playoff Procedures were recommended by the Football Coaches' Committee and adopted by the Board of Directors.

I. FIRST, SECOND AND THIRD ROUND GAMES:

B. WVSSAC FOOTBALL PLAYOFF SITE STANDARDS

1. FIELD:

- Field surface must have proper drainage.
- Surface shall be in a safe and playable condition in late season. It must have a grassy surface without extensive rough spots. Excessive use lessens safety and playable conditions. It is suggested that activities in excess of 15 events on most grass fields is probably too much.

- Unanchored team benches must be provided, and these benches shall be at least 4 yards from the sideline.
- A field barrier, whether permanent fencing or temporary structures, **should be no closer** to the out-of-bounds lines than 5 yards. This field barrier shall have controlled access to permit teams and bands to enter the playing area but must be constructed in such a way that fans cannot enter the playing area. It is preferred that team access be separate. E
- Field markings must conform to Rule 1-2. This includes sidelines, end lines, yard

lines, pylons, field yard-line markers, properly padded goal posts and team box areas (which shall be a full 6 feet from the sideline). **A 4-inch-wide broken restraining line 6 feet outside of and around the playing field is required. Goal line shall be white.**

 - i) An operable 25 second field clock.
 - j) An operable on field microphone.
- 2. SPECTATOR SEATING:** (18" per occupant) AAA - 4,000; AA - 3,000; A - 2,000
- a) Seating includes that provided for bands, including band seating inside field barrier.
 - b) Seating to be included in total shall only include elevated seats. It is recommended that these seats be elevated at least 3 feet above ground level.
 - c) Handicapped seating must be considered and, if at field level, removed at least 5 yards from any field boundary.
 - d) Seating must meet all local safety standards and have safe and easy access and egress.
- 3. DRESSING ROOMS:** These must be separate and accessible for both teams.
- a) AAA must have space for a minimum of 60 players and structures (lockers, hangers or pegs) available to get clothes up off the floor as well as seating. AA must have 50 spaces and A must have 40. Space for coaches must be considered.

 - c) Rest room facilities for players shall be available (at least semi-private).
 - d) A suitable writing surface must be available for coaches of both teams. (Examples: chalkboard, dry eraser board, etc.)
 - e) A separate and private dressing facility must be provided for game officials with adequate accommodations including showers and rest room facilities.
- 4. PRESS BOX:** This structure shall be high enough to give timers and score board operators a clear view of the entire field. Adequate electrical outlets must be available.
- a) Space shall be provided for press and radio/TV.
 - b) Assistant coaches shall be separated from their opponents and space for film crews must be available.
 - c) AAA should have minimum space for 18 personnel, AA 15, and A 12.
- 5. MEDICAL ASSISTANCE:** On-field medical assistance must be available for both teams.
- a) Sideline areas may be set aside for these personnel within the team box.
 - b) A plan for transport to a nearby hospital must be considered.
- 6. PUBLIC REST ROOMS AND CONCESSIONS:**
- a) Easily accessible to spectators.
 - b) Rest room commode/urinal combinations for each sex; numbers suggested are: AAA 8, AA 6, A 4. Portables are permitted to accommodate large crowds.
- 7. PARKING:** It is recommended that parking areas be lighted.
- a) On site parking for teams, bands, and officials must be provided.
 - b) Spectator parking must be adequate. Appropriate security must be provided if spectator parking is inside same enclosure as field.
 - c) Handicapped parking shall be considered.

8. SECURITY:

- a) Adequate security must be available for spectators, players, and officials.
 - b) A security person should accompany officials to and from their dressing room.
 - c) Uniformed security is necessary with at least one possessing powers of arrest.
 - d) Must have a weather emergency plan.
- C. All games in 1st, 2nd, and 3rd rounds will be played at the approved home site of the highest rated team. If the home site is not approved, the game will be played at an approved site selected by the highest rated team subject to the approval of the WVSSAC office. WVSSAC Football Game Shortening Rule:

Re: NFHS Football Rule 3-1-2

Beginning with the start of the 4th period if a 35-point differential has been reached the clock operator will keep the game clock running except for the following situations:

- Clock stopped for an injured player
- A charged Team timeout is awarded
- There is a change of possession
- There is a score
- For a try after touchdown
- Any extended delay

When these instances occur, the **Referee** will face the clock operator and give the Stop the Clock signal (**signal 3**).

When the clock is stopped for any of the above reasons the clock will start on the Ready-for- Play by the Referee. The **Referee** will face the clock operator and give the start the clock signal (**signal 2**).

The game clock will run during the following:

- Incomplete legal or illegal forward pass
- Runner goes out of bounds
- For Penalty Administration including delay of game fouls
- When a first down is gained with no change of team possession
- When there is a change of possession and the team that had possession at the beginning of the down has possession at the end of the down.

Game officials will use all normal mechanics within the Game Shortening Period. The remainder of the 4th period will be under this rule even if the differential is lessened.

NFHS Rule 3-1-3 may still be utilized. "A period or periods may be shortened in any emergency by agreement of the opposing coaches and the referee. By mutual agreement of the opposing coaches and the referee, any remaining period may be shortened at any time or the game terminated."

New: If the point differential is 35 points or greater at halftime, referee initiate conversation with the coaches and inform them of their option of shortening the 3rd period since regular timing rules still apply.
